SUMMARY & SKILLS

Enthusiastic software engineer with full-stack training and hands-on project experience. Skilled in building scalable web applications and collaborating with cross-functional teams to deliver innovative, user-centered solutions. Passionate about applying problem-solving, adaptability, and a growth mindset to real-world challenges.

Tech: JavaScript, HTML5, CSS3/SASS, TailwindCSS, Web & REST APIs, ReactJS, NextJS, NodeJS, ExpressJS, TypeScript, PostgreSQL, MySQL, Prisma ORM, Sequelize, Redux, Git & GitHub, Python, SQL, Docker, VSCode, Amazon Web Services (AWS)

Design: Adobe Premiere Pro, Figma

Languages: Chinese Mandarin (Conversational)

EXPERIENCE

WEB DEVELOPER APPRENTICE, The Knowledge House (TKH), New York, NY Sep 2024 - Sep 2025

- Built and maintained features for an internal educational platform, including an AI chatbot and an integrated AI lesson generator, ensuring usability for students and teachers
- Presented the platform's prototype to stakeholders, donors, and media, enhancing TKH's visibility and support
- Authored technical documentation for project handoff, ensuring maintainability and continuity for future developers
- Participated in agile meetings (daily standups, sprint reviews) to align project development with team goals and deadlines

PRO BONO FULL STACK DEVELOPER, *Prometheus - Contract*, New York, NY Feb 2024 - Jul 2024

- Collaborated with developers to enhance an online career advancement tool for current and future low-income and/or first-generation college students
- Spearheaded the handoff process and onboarding presentation for client leadership, ensuring seamless knowledge transfer and long-term project ownership
- Integrated third-party APIs and libraries to ensure a stable and dynamic user experience
- Resolved programming errors and refactored code to improve application performance and reliability

PROJECTS

KNOWLEDGEBASE | Demo upon request Sep 2024 - Sep 2025

- **Description:** Full-stack collaborative app where students and teachers exchange tech knowledge. Features include AI chatbot support and AI-generated lessons. Developed by a team of software and data engineers, designers, and a project manager
- **Engagement:** Translated wireframes to responsive UI with Next.js and TailwindCSS; connected to backend via Express.js and AWS; and managed PostgreSQL data with Sequelize ORM

CAREERSPRING | Live [link](#) Feb 2024 - Jul 2024

- **Description:** Built an assessment survey web app with third-party API integration, deployed on Vercel in collaboration with a team of software engineers and a project manager
- **Engagement:** Designed and built an interactive front-end survey components using NextJS and TailwindCSS

BIBLIOPHILE'S COMPASS | GitHub repository [link](#) | Live [link](#) Dec 2023

- **Description:** Front-end bookstore search app leveraging Yelp Fusion & Google Maps APIs
- **Engagement:** Utilizing HTML5, CSS3 and JS skills to perform DOM manipulation and API integration; created a responsive user interface tailored to bibliophiles, autodidacts, and avid learners

EDUCATION

THE KNOWLEDGE HOUSE, Innovation Fellowship - Web Development, Bronx, NY Oct 2023 – Sep 2024

- Completed 400+ hours of project-based training in full-stack engineering, UX/UI, and agile team practices

BRAINSTATION, Web Development Certificate New York, NY Oct 2022 – Jan 2023

BARD COLLEGE, B.A., History, Annandale-on-Hudson, NY Aug 2012 – May 2016
